**Salil Chaturvedi's** curated projects at the festival explore the powerful intersection of accessibility, art, and disability through inclusive experiences that challenge conventional narratives.

Salil Chaturvedi is an Indian writer, poet, and disability rights advocate. He is well known for his poetry, short stories, and personal essays that reflect on nature, disability, and the human experience. Chaturvedi is also recognized for his work in raising awareness about the challenges faced by people with disabilities.

### List of Accessibility Events:

- **Bird Watching for the Blind**

In collaboration with Goa Bird Conservation, this unique initiative offers birdwatching sessions for the visually impaired, both outdoors and indoors. Participants will not only hear the sounds of birds but also engage with specimens through touch, allowing them to experience birdwatching in a completely different way.

This exhibition brings together artwork by artists with disabilities from around the country to adorn the walls.

- **Mural**

This multi-sensorial mural, curated with Shivangi Agarwal, explores the complex intersection of disability, time, rest, and queer realities. It invites viewers to reflect on these themes, challenging linear views of these lived experiences. By incorporating multimedia elements, the mural aims to create a space for deeper engagement and reflection.
